

# Gingivectomy #6-11

**Background:** RT needed a gingivectomy before fixing teeth #8-9. The idea was to provide his front teeth with appropriate esthetic proportions.

**BEFORE: Thicker Gummy Smile with Small Teeth**

**AFTER: Normal Sized Teeth with Appropriate Esthetic Proportions**

**Testimonial:** "Piece of cake! Now I need to fix my chipped teeth and I'll be in great shape again!"
