

Implant #8 with Crown

Background: CT presented with an implant placed at another office. The implant position and gum levels required further attention in an effort to gain an appropriate esthetic result. She had gone to a dentist who advertised for \$995 implants.

Initial Appearance

Previous
Implant
Placement

This patient required soft tissue and hard tissue grafting in this area in an effort to mask the implant surgical complications which occurred at the other office.

These complications could have been avoided.

Final Implant Crown #8

Testimonial: "You get what you pay for. Thanks for doing things right. I'm finally proud of my front tooth. I learned my lesson!" - CT, Marlton, NJ
