

Implant #7 & #10 with Crowns

Background: M.C. was congenitally missing tooth #7 and tooth #10 was a peg incisor. M.C. completed orthodontics to recreate the space. During treatment, M.C. required different procedures, ask Dr. Kubikian about more in-depth information.

Testimonial: "I was always nervous about missing my front tooth. Now, I have a tooth which feels real and I'm thankful for the end result." M.C.- Philadelphia, PA.
