

About South Jersey Periodontics & Dental Implants

South Jersey Periodontics & Dental Implants has been saving and replacing teeth since 2009. For many, innovation equals technology. For founder Daniel Kubikian, DMD, it is more. His broader view has created an environment of well-being, education and camaraderie for patients, doctors and staff. SJ Perio is known for using the latest advances in periodontal treatments, such as laser periodontics (LANAP), and dental implants to replace single, multiple or full sets of teeth. Setting the practice apart is Dr. Kubikian's approach and unique "digital" All-on-4® same-day implant placement and restoration approach earning Nobel Biocare™ Center of Excellence recognition. The practice also uses digital dentistry to create 3D printed teeth. Key to the innovative patient care is SJ Perio's team of board-certified periodontists and implant specialists who work alongside general and specialty dentists throughout the region to ensure a continuum of treatment. Next for SJ Perio is a new 15,000 square foot state-of-the-art facility that nearly triples current practice size and will become the largest single periodontal and dental implant facility in the U.S. "Washington Manor" will celebrate the true essence of American entrepreneurship, innovation and ingenuity. The nurturing environment will house dedicated areas for patient care and consultations, countless amenities for staff and patient caretakers and a CLE teaching facility for dentists, surgeons, hygienists and other professionals.

About Daniel Kubikian, DMD

Dr. Daniel Kubikian has been part of the South Jersey community for nearly two decades. In 2001, Dr. Kubikian received his Doctor of Dental Medicine degree from the School of Dental Medicine at The University of Pennsylvania and went on to complete a 4-year post-graduate program in periodontics and periodontal prosthesis, earning the Chairman's Award. It wasn't long before Dr. Kubikian founded South Jersey Periodontics & Dental Implants in 2009. The Sewell-based periodontal and dental implant practice promotes the latest advances in periodontal treatments and dental implants earning it Nobel Biocare™ Center of Excellence recognition. Dr. Kubikian is a board certified Diplomate of the American Board of Periodontology and Assistant Clinical Professor in Department of Periodontics at Penn Dental. He has lectured about periodontics and dental implants across the country. Dr. Kubikian is committed to education. Since 2007, he has taught implant courses accredited by the N.J. Dental Association and a year later, he founded the South Jersey Dental Study Club which meets monthly and provides CLE programs to the dental community from prominent national and international lecturers. This has recently expanded to include programs dedicated to dental hygiene professionals. Outside of dentistry, Dr. Kubikian spends time with his wife and daughters. He is an avid sports fan and enjoys baseball, basketball and football.
